Porcelain

Porcelain is known to be one of the most popular dishware in the globe. Made in a way that it can be easily washed with the stains removed, Nebka porcelain products are produced in tunnel kilns at 1400 ° C and have high strength. The use of IGD technology (inside the glaze) has created a transparent layer on the porcelain and its extraordinary shine.

Nebka Porcelain

Resistant to heat and not breaking easily when cooled or heated, Nebka porcelain products are highly transparent, light and bright. They don't scratch when in contact with spoon and fork. Not only are they completely hygienic with no toxic or harmful substances, but they can be washed in the dishwasher and used in the microwave.

Different types of porcelain

1. Porcelain kitchen utensils

Salt shaker: In addition to being beautiful and correspondent with other utensils and kitchen utensils, it is very handy in different designs and colors.

Samovar tray: Most of the time, the samovar tray is kept next to the samovar or oven, and they are available in 3, 7, 8 and 14 pieces. The main components of Nebka samovar trays include tea set, sugar bowl, and other items such as spice jar, oil bottle and lime juice bottle. The variety in colors, designs and models has made Nebka samovar tray stand out among other brands.

Porcelain teapot: When it comes to porcelain teapots, there are different designs, colors, models and sizes. There is a net inside them so that no particles of pulp are poured into the cup or glass.

Porcelain lidded refrigerated containers: These containers are suitable for storing food in the refrigerator to prevent air infiltration and mold. Their doors are strong and have a beautiful design and are available in three sizes: large, medium and small.
