Business description

Production of various and high-quality dishes requires necessary facilities and special equipment. Containers produced by Nebka Trading Company are of high quality and have a special place in terms of design and model in the Middle East.

In the production of all products, IGD technology -inside the glaze- is used to ensure the stability of the design and color of the dishes. The glaze covers the designs and patterns like a transparent and protective layer, which makes the patterns shine on the dishes and also increases their resistance to washing.

In addition to producing high-quality products, this company can act on your orders related to the design and printing of logos and brands for hotels, restaurants and institutions and organizations on dishes. Nebka porcelain, Arcopal and ceramic dishes include all kinds of kitchen utensils, catering utensils, hotel and restaurant utensils and decorative utensils.

Nebka Trading Company produces an average of 50 to 60 thousand tons of porcelain, Arcopal and ceramics annually, and this high production capacity has attracted a lot of attention of customers in the region and all products export to Spain, Norway, New Zealand, UAE and Iraq.
